Profile

Full-stack developer skilled in MERN stack and Python, with experience building scalable web applications and APIs. Strong foundation in data structures, problem-solving, and integrating modern technologies into real-world solutions.

Education

University Of Delhi	Delhi, India
Masters of Science in Informatics	2023-2025
Relevant coursework in [Relevant Subjects: Database Systems, Computer System Architecture, Web & Mobile Application Framework, Data Analytics & Visualization, Cloud Computing, etc.]	
Acharya Narendra Dev College (University of Delhi)	Delhi, India
Bachelors of Science in Electronics	2020-2023
Relevant coursework in [Relevant Subjects: Computer Networks, Programming using Python, DBMS, Information Security and Cyber Law, etc.]	

Skills

Technical: HTML, CSS, JavaScript, React.js, Node.js, Express, Python, MongoDB, SQL, Fast Api, Three.js (React Three Fiber), Git, Tailwindcss, AWS

Tools: GitHub, VS code, Postman, Chrome DevTool, node.js inspector, nodemon, Mongoose, React Developer tool, Blender, PyCharm

Projects

SPIE Student Chapter, [Acharya Narendra Dev College] || [Certificate](#) ||

Tech Stack: React.js, javascript, tailwind CSS

- Designed and developed interactive Spie Student Chapter at Acharya Narendra College website Team section during my tenure.
- Implemented responsive UI components and page layouts in Teams Section.
- Collaborated with the student chapter team for content.

AssessenThe Advance Care Facility || [Live Link](#) ||

Tech Stack: React.js, Node.js, express, MongoDB, JavaScript, Tailwind CSS, Python

- There is a problem in online doctor appointment portals, as many people don't know which doctor they consult related to their diseases. So, we created a section where you can give symptoms and its predicts the disease, gives precautions and suggest the correct doctor according to your disease.
- We integrate an AI (Taarika) to the portal so anyone can get medical knowledge.

AssessenThe World (3D gamified portfolio) || [Live Link](#) ||

Tech Stack: React.js, Three.js, Tailwind CSS

- Created a **personal 3D portfolio website** using React Three Fiber to showcase projects interactively.
- Implemented animations, smooth transitions, and performance optimizations for cross-device compatibility.
